Table-Talker

Was \$14
Now \$12⁵⁰

Progressive Canadian manufacture has lowered the price of Brandes Table-Talkers.

Now everyone can keep in touch with the interesting events of the day. Follow the great political movements—hear the great speeches and vital messages. Hard, slow reading—but easy to listen to with the Table-Talker.

And, too, there is everything from sports to recipes, from grand opera to market reports, from prize fights to bedtime tales. All brought to your home—shared with your family and your friends by the real reproduction of the Table-Talker.

When You Buy a Flannel Sport Dress Insist on Trenella,
the Genuine Broadcloth-Finished Flannel

The Success of TRENELLA DRESSES has brought out a host of imitations

While the widespread desire to imitate Trenella is flattering, these imitations are no inferior to the original that we urge you, for your own sake, to insist on seeing the Trenella label.

Fashion calls for "sport" models this season, and nothing produced so far embodies the style, color, good appearance and value of Trenella Dresses.

Trenella is expensive among flannels. It is a specially made fabric with superior finish and tailoring qualities. It costs twice as much to weave as some of the substitutes you may be asked to buy, but costs you very little more.

Your full outfit is sure to include one or more flannel sport dresses, and if you insist on these being Trenella you will be sure of satisfaction. There is a store in your town that sells Trenella—name on request. The prices range from \$9.95 to \$19.95.

German Rivals Canada's Road

All Important German Railways Now Passed Into Hands of One
German Trust—Amalgamation 35,000 Miles Long

By WILLIAM ACHWIST

GERMANY'S railways, with a few negligible exceptions, have passed into the hands of one great trust company which will operate them under the management of the German government. The name of this new enterprise is still to be seen down in every town or village in Germany. It will be known as the Deutsche Reichsbahn, and it will be the largest of its kind in the world. It will be the largest of its kind in the world. It will be the largest of its kind in the world.

Before the war, though, the German Reichsbahn had long been regarded as very backward (with the exception of those in Alsace-Lorraine, which were ceded by the Reich, but operated by France) to the rest of the world. But by the late 1920s, the German Reichsbahn had become one of the most modern and efficient in the world. It had been built up by the German government, and it had been built up by the German government. It had been built up by the German government, and it had been built up by the German government.

It is an odd story that the dominion of the railways, common to the German government, has been able to provide the railways with a guarantee for the railway companies. When, however, the German government began to build up the railroads in 1919, the German government began to build up the railroads in 1919. The German government began to build up the railroads in 1919, and it has been building up the railroads in 1919.

management of the railways had been previously in the hands of various private companies. But in 1919, the German government began to build up the railroads in 1919. The German government began to build up the railroads in 1919, and it has been building up the railroads in 1919.

The report submitted to the German government, which was submitted to the German government, was submitted to the German government. It was submitted to the German government, and it was submitted to the German government. It was submitted to the German government, and it was submitted to the German government.

The German government has been building up the railroads in 1919, and it has been building up the railroads in 1919. The German government has been building up the railroads in 1919, and it has been building up the railroads in 1919. The German government has been building up the railroads in 1919, and it has been building up the railroads in 1919.

Salesman Must Be Artist, Too

Higher Types of Salesmen, Making Salaries of \$45,000 and More, Show Greater Groom and Other Signs of Marked Ability

BY MARION SACROWOOD

"IN ORDER to succeed in a big way as a salesman you must be a good artist as well as a good salesman," says a study by a group of researchers at the University of Toronto.

Are War's Hatreds Wiped Out?

Former London Times Correspondent Says Derivative Indoctrination That France and Germany Are Not at Each Other's Throats

HELEN HEDDERLEY

AS LONG as the newspaper editors of France and Germany are not so stupid as to let the hostility of a Franco-German war be the headline of the New York Times, the London Times, or any other newspaper, there is no more serious indicator of the hostility of France and Germany than the headlines of the New York Times, the London Times, or any other newspaper. Use Old Dutch

A little goes a long way

A little Old Dutch goes a long way. It is not only your greatest cleaning help but the most economical too, because it does so much with so little cost and labor and nothing else can do it so well.

The reason is that Old Dutch is a natural cleanser. Its fine, flaky particles, so active and efficient, go farther because they are flat shaped and cover more surface. Every particle works and the cleaning is done in less time, at a great saving in work and expense.

Old Dutch cleans hygienically. Everything is made sweet and sanitary. Doesn't scratch surfaces or hurt the hands.

Be sure you use Old Dutch—there's nothing else like it.
